Cultural Curriculum Audit and Revision - CCAR

Ventura College's Cultural Curriculum Audit & Revision originated from Long Beach City College during a collaboration between our colleges in Spring 2021. Since then, Ventura College has been developing and editing our own version of CCAR and collaborating with many along the way. During Spring 2022, Ventura College welcomed a team of 6 from San Jose City College faculty to our cohort. Collaboration, vision, and team leadership is progressing as we plan future cohorts for the 2022-2023 academic year.

CCAR will help you continue to cultivate an equity-minded approach to your courses through Canvas material and Zoom workshops. Over 5 weeks, you will work with your course success data to better understand who is in your classroom, learn how to apply Universal Design (Accessibility) and Culturally Relevant Teaching practices, and build strategies to shift your approach to your students and your material.
